\$319,900

2 Bedrooms | 1 Bathroom | 924 Sqft

This home offers something that's getting harder to find: easy, affordable lake living near Cowichan Lake. Built in 2012, this 2-bedroom home blends comfort and lifestyle with vaulted ceilings, a cozy wood stove, ducted heat pump, and stainless steel appliances. The spacious primary bedroom and 4-piece bath (double vanity, corner tub, and separate shower) add everyday comfort, while a built-in air exchanger keeps things fresh year-round. Outside, the fully fenced yard with privacy fencing is perfect for kids and pets, with room for RV and boat parking under the carport and beyond. Enjoy your own peach and nectarine trees, grape vines, kiwi, lilac, and thornless blackberry plus water access just steps from your front door. Low-maintenance, close to transit, and ready for your next chapter by the lake.
